MR. MURRAY ALLOWED BY JUSTICE SMITH TO BRING AN ACTION AGAINST MRS. CHARMAN.

An application was made to Justice Smith of the Supreme Court, in Brooklyn, yesterday, by Everett Wheeler, for an order to restrain certain propertyowners in Larchmont from bothering Mrs. May Charman, who keeps the Victoria Hotel, with any In opposition to the application, the affidavit of Francis M. Scott was submitted, in which he deposed that he has a summer home in Larchmont and has lived there for twelve years The property in the section is restricted so that it cannot be used for ordinary business purposes.

Scott says that in the summer of 1895 Mrs. Charman

I put up a hotel, despite the restrictions, and kept

open bar there, at which drinks were sold indis-

criminately to others besides the guests of the hotel.

Mr. Scott says that out of curiosity he went to the

place to see what was the character of the persons who frequented it. He found a sort of cake walk

going on in the parlor under the direction of Mrs.

Charman, in which a number of negroes were taking

said also that the continuance of the hotel would

drive many people away from Larchmont and de-

preciate the value of property. An affidavit by William Murray was also introduced, in which he deposes that he owns 125 lots in Larchmont. He told Mrs. Charman not to construct the hotel, informing her that she would get into difficulty if she did so. Justice Smith granted the motion allowing Mr. Murray to proceed with his action against Mrs. Charman as a test case.

There was a double shooting in Larchmont, at

midnight on Wednesday, which fortunately did not end seriously. Lemuel Tompkins is the proprietor

Collins was also arcested, and he and Palmer were taken to the County Jall in White Plains, yesterday afternoon. The bullets in Palmer's body were extracted, and it was found that he had not been badly hurt.

John Henry Terrell committed suickle a short time after II o'clock vesterday morning at the Crompound Road, six miles from Peekskill. The eed was committed with a razor. Mr. Terrell was born in Rahway, N. J., about forty-four years ago. Both his parents are dead. He had a brother, Dr. Thomas Terrell, in Elizabeth. Six years ago he married Laura, the daughter of Constant White, a married Laura, the daughter of Constant White, a farmer of Yorktown. For about twenty years Mr. Terrell had been an engineer in the employ of the old Dominion Steamship Company. He was chief engineer of the Wyanoke for some time. When the new steamers Yorktown and Jamestown were added to the line he was made chief engineer of the Torktown, and had labored hard to increase her efficiency. For twenty years he took no vacation, except a fortnight six years ago, when he was married. As a result of his constant application to his business, and the fact that he could not being the Yorktown to the speed and efficiency he desired, he worried constantly, and his nervous system began to give way. Four weeks ago he came home, and had been here since. He had been melancholy and morose. He visited Dr. Charles C. Knight three times in his office, and was treated for insomnia and nervous prostration. On Welnesday evening he attended a wedding. Texterday morning about 10 o'clock he went to an outhouse. He was missed, and a search was begun. His father-in-law, Mr. White, found him in southouse, bleeding from a horrible gash in the throat. Terrell was carried to the house, neighfors and doctors summoned, and Miss Ellen Ann Johnson watched him, but was ordered out of the form of the treatment of the summent of the form throat, and fell. He died soon afterward. Coroner Charles S. Appear drove out to the house last evening, and at 8 o'clock held an inquest. It was brought out at the inquest that Terrell had made an unsuccessful attempt to drown himself dast Friday. Counsellor Stephen Lent had just drawn a will for the dead man, and he was expected at Peekskill yesterday to execute it. YONKERS. The second day's session of the Conference of the African Methodist Episcopal Zion Church opened this morning at 10 o'clock. The only business of importance was the report of the Rev. C. H. Ten Eyke, Presiding Elder of the Long Island district. He said in part: "Financial depression has fallen heavily upon the people of Long Island. A number of men have received less than \$100 on their year's salary, yet they have remained at their posts. The Riverhead Church has struggled hard to pay its expenses this year, but has not been able to do so. The church at Greenport has not been able to give the pastor a comfortable support. FLUCTUATIONS IN THE COTTON MARKET. There was renewed talk of a possible corner in

The course of prices on the local Cotton Exchange, however, was very on the local Cotton Exchange, however, was very erratic yesterday, August selling as high as 7.27 and as low as 7.12. It closed at 7.26, or 13 points over Wednesday's final figures. The new crop months closed 2 to 4 points higher. Total sales on the exchange were 223,000 bales. The leading bear covered, it was said, 50,000 bales, and reaped an enormous profit. These figures were thought to be too high, however.

There were rains in Texas, but not sufficient to break the serious drouth there, it is believed. Elsewhere in the South the weather was reported as favorable. The effect of the bearish Bureau report was still seen in selling orders from the South. CLAIM BY THE DOCK BOARD. IMPORTANT ACTION REGARDING LAND

A RESOLUTION TO SEIZE PROPERTY IN THE NEWLY ANNEXED DISTRICT-PROSPECT OF

UNDER WATER

A LIVELY LEGAL CONTROVERSY-

Important action was yesterday taken by the Dock Board in regard to hundreds of acres of land under water in the Annexed District, which will affeet many large and small land-owners having riparian rights in the towns of West Chester, East Chester, Pelham and other places in the lately an nexed district. The riparian land in question is held by the owners under grants from the State but the Dock Commissioners, under the advice o Corporation Counsel Scott, contend that the State Land Commissioners had no right to issue such grants, and at their regular meeting yesterday decided, by resolution, to seize such property, include it in a wharfage district, and place a dockmaster in

charge. The land to be taken possession of by certain to increase greatly in value within the next few years. A number of legal fights will doubtless result from the action of the Dock Board, and a test case will probably be made to decide the mat-ter. The point of contention is, briefly, as to whether the land was the property of the State of of the towns and villages. The Dock Board and their advisers contend that old records clearly show that the land under water was the property of the towns and villages, and that the State had no right over it whatever. The owners and the State, on the other hand, will maintain that the property authority to make the grants given.

Among the many prominent property-holders in terested in the outcome of the contention are Oliver Iselin, Pierre Lorillard, fr., John W. Munro the Morris family John Hunter, Daniel Carll, Sam uel Bowne Duryea, William H. Browne, Alfred on and the Country Club Land Association. land which the city intends to take charge of i situated on Long Island Sound, Westchester Bronx River Bay, Pelham Bay, Eastchester Bay Bronx River, Hutchinson's River, East River and smaller streams. The Commissioners have moving slowly in the matter, and President O'Brief confident that their position will be supported by the courts. The first fight will probably come from the town of West Chester. The there had their counsel, Seward Baker, investigat the matter, and he gave an opinion that the grants to the individuals who now hold the riparian land are invalid. In his opinion, Mr. Baker goes back to February 13, 1667, when Governor Nicolla Issued patent to the trustees for the freeholders and in habitants of Westchester, which conveyed the town of West Chester. The Governor in conveying the lands wrote as follows: Together with all ye lands, soyles, reckes, riveeks, harbors, waters, lakes, fishing, hunting

lands, to show that their title was vested in the

lands, to show that their little was vested in the towns and villages. In conclusion he says:

As we understand the nature of the application made for the granting of this land by the State, the hearing thereupon by this committee of the Land Offices is only to determine whether the State will assume to make the grant, and that the grant, is made, does not preclude the town from bringing an action at law. It is not deemed necessary to go further into the question, as all patents are on record in the office of the Secretary of State, and all the matters pertaining to the contention of the town officers are matters on record. We therefore claim under the patents, deeds and cases hereinbefore recited, that the State has no title to the lands adjoining the uplands of the town of West Chester, for the reason that the same has been hereinfore trants to the township, and that applications for grants should be made to the town officers.

The Commissioners believe that this is equally true.

ation for places in the public school, to of the other towns and villages in the Annexed Distriot. In their judgment the only legal rights out side of the city's claims are where towns or village have given riparian rights to individuals prior to annexation It is pointed out that there are legal precedents

annexation.

It is pointed out that there are legal precedents for the stand taken by Mr. Baker and Corporation Counsel Scott. The patent granted to the town of Brookhaven, for example, is almost the same as that granted to West Chester, and the little to land under water in the township of Brookhaven has been sustained by the town in several cases carried to the Court of Appeals. The old Indian titles provide that the exclusive rights to these ripatian lands shall be vested in the town of West Chester. The State laws recognized these rights until last year, when the Annexation act was passed. Here is probably one of the points upon which the fight against the city will be made. A rider was passed with the bill, and became a law, which gave to Land Commissioners the right to make grants of West Chester land under water. An interesting and viscorous fight is in prospect before the matter is finally settled. The triple coupon system of collecting wharfage, which went into effect on January 1, has been so successful that the Dock Board sees an opportunity to economize, and, accordingly, following the advice of the Superintendent of Docks, E. S. Atwood, drapped two dockmasters, and may drop one more when the city has been redistricted. This woulf reduce the number of dockmasters from eighteen to fifteen, and be a saving of \$1,500 annually to the city. The two men dropped were Theodore Katz and Thomas F. Geary, who received \$1,500 a year each. The only reason they were selected for dismissal was that they were the latest appointed.

GRAVESEND WITHDRAWALS

SO NUMEROUS AS TO CAUSE DISSATIS-

FACTION. SMALL FIELDS THE RULE-RESULTS OF THE

CONTESTS. Admirable racing weather attracted a large crowd to the Gravesend track yesterday afternoon. Numerous withdrawals from a moderate racing card caused much dissatisfaction to the patrons of

the track. All over the grounds there were murmurs of indignation from men and women who object most strenuously to paying admission to the track to see races that have been deprived of their attractive features. The public have every right to complain and the management of the racetracks should prevent wholesale withdrawals of the horses named as probable starters in the daily newspapers. The revenues of the racing associations at the present time are so plentiful that the cost of entering in races could be materially reduced, thereby insuring larger fields. If the managers of the Brooklyn Jockey Club heard some of the remarks made by racegoers yesterday it is safe to say that an effort would be made to insure racing

tisfactory to their patrons. In the first race there were only three starters. King's Counsel was an odds on favorite at 10 to 7 on at the close of the betting. Azure was also well backed at 7 to 5 against his chances. Old Matt wa friendless at 15 to 1. When the flag fell Old Matt took the lead for a quarter of a mile, when King's Counsel went to the front and stayed there, winning in a drive by half a length from Azure. Old

Matt was beaten off. The second race was another three-horse affair that was won easily by Nanki Pooh, who was the favorite in the betting at 5 to 2 on his chances. Chugnut was second and Song and Dance last

The third race was the Hanover Stakes, a halfmile dash with selling conditions. The jockey caused much trouble at the post by their antics Hi Daddy was the favorite at 2 to 1, Salvado and Successful were well backed at 4 to 1 each. Some extremely wise bettors secured as good as 8 to 1 against St. Hartholomew. The start was not a good one for Successful, who was left at the post. St. Bartholomew was the first to show, but Griffin was ontent to bide his time and permitted Doggett, or H! Daddy, to take the lead. On turning into the homestretch Griffin came on the inside of Hi Daddy with St. Bartholomew, which prevented the latter from running out, so that when straightened for the run in St. Bartholomew outran H! Daddy eat him a length at the finish under a drive. Passver was third

The fourth race was a selling affair at a distance f one mile. Brisk was the favorite at 7 to 5 against his chances. Premier, at 13 to 5, was next in demand. Copyright, at 4 to 1, and Marshall, at 6 to i, had some followers. Brisk went into the lead at the full of the flag, and was never headed, winning the finish with amazing ease by nearly two engths from Copyright, who beat Premier a head

Maxim was at 100 to 45 in the betting, with Dorlar orsaken by the public, but carried some clubhouse noney for the place. The race was called the Park way Handicap for a purse of \$2,000. The accept ances, odds and the number of starters speak vol imes as to the ability of the official handicappe o satisfy owners and trainers. Aurelian led or sufferance for three-quarters of a mile, when St Maxim galloped by him and won as he pleased by engths further back. In the last race Peep o' Day was the favorite a

5 in the betting. The others were backed at ranging from 4 to 1 to 29 to 1 against their chances. Rumors were as thick as tips throughout the betting. Some bettors hedged their bets on Peep o' Day and placed them on Senator Murphy, who, in turn, was reported to be anything but a raceborse. The race proved that Peep o' Day outclassed his opponents. He won as he pleased at the finish. Eliza Belle was second and Senator Murphy third.

THE CARD TO-DAY ABOVE THE AVERAGE. LIBERAL ENTRIES FOR THE PURSE RACES-PRAISE FOR AUGUST BELMONT AND JAMES R. KEENE.

The card for the Gravesend races to-day is above the average in excellence. The handloaps, as usual are a failure so far as numbers are concerned Liberal entries have been made to the purse races and ten horses are named as starters in the hurdle race. August Belmont is anxious to make the card attractive and enters his horses freely in races, even if they are beaten in many of them. James R. Keene is considered by racegoers as on

of the leading sportsmen of America. He deserves the highest praise for his unselfish devotion to racing. Now that the horses in his stable have recovered from their illness, the white with blue spots will be frequently seen in races. Horse own-ers should follow the example of August Belmont and James R. Keene and enter their horses in races. it is essential to the success of racing that horse once entered in a race should not be withdrawn unless the stewards receive some valid reason. If the weather is propitious, a large attendance is likely to witness the contests to-day. Here are the entries:

CONTESTS IN MONTANA.

Many horsemen from this neighborhood have been attracted to Montana with their racing stables by the liberal purses and stakes offered by the Anaconda and the Butte racing associations.

Edward A. Tipton is at the head of the affairs doth the Anaconda and the Butte meetings. The stakes have filled better than the most enthusiastic turfmen of Montana anticipated. High-class horses are entered in every stake, consequently the residents of the Silver State are likely to witness firstclass contests. Moreover, the horses entered are from widely separated cities; hence many of the races will furnish interstate contests. Mr. Tipton is a master hand in the management of trotting meetings, having achieved success in Kentucky and the East. The liberal entries to the stakes to be run for at Anaconda and Butte assure the success of Mr. Tipton in Montana.

MIDDLE STATES TENNIS TOURNAMENT. STEVENS DEFEATED BY R. D. WRENN-GOOD PLAY EXPECTED TO-DAY AND TO-MORROW.

Three of the final rounds in the Middle States championship tennis tournament were reached yes-terday afternoon at Mountain Station, and to-day and to-morrow will be lively days in the scratch contests, as the surviving players are all of the highest rank. Hobart will meet Wrenn in the sin-gles; Wrenn and Hobart will face Millett and Talmage in the doubles, and Miss Moore will try con-clusions with the National champion, Miss Atkinson, in the women's singles. The mixed doubles begin this afternoon, with six good teams, and the handleap is now well advanced.

The spell which prevents tennis players from car-rying off the Middle States cup seems as potent as ever. Larned, who has won it twice, is in Europe, and Richard Stevens hoped in his absence to obtain the coveted trophy, but the ex-champion, Robert Wrenn, represented the fates in capital style, and Stevens met disappointment for the third consecutive time. Wrenn played his old game against Stevens and lobbed everything. This seems a p game to adopt against a player who cannot volley, out Wrenn's theory that Stevens's ground stroke is useless against high-bounding balls was again triumphantly vindicated. Stevens lost heart toward the close and the game was very one-sided.

The Englishman, Cranston, squared accounts with Lyman. Though the Orange player won on eventures in the scratch contest, Cranston gave him two-sixths yesterday with success. George Wrenn's play was excellent against Hobart, the crack New-Yorker losing a set. The summary:

Men's singles (semi-final round)—Clarence Hobart beat George L. Wrenn, 6-4, 2-6, 6-3; Robert D. Wrenn beat Richard Stevens, 6-3, 6-0. Men's doubles (preliminary round)—Lieutenants R. P. Davis and W. A. Bethel beat Robert M. Miles, jr., and leorge E. Miles, 7-5, 5-7, 6-3.

SHAM BATTLE AT WEST POINT. MANY RECORDS BROKEN IN THE FIELD DAY

here to-day than at any time during the graduation ercises. This drill began at 5 o'clock this evening and continued until after 6 o'clock. It is the one drill more than any other which in-

teresis the average spectator. There is a continued fusiliate of firing, and the orders given by the officers in command infuse a spirit of inspiration to the spectator. The battalion was divided into four companies, and, owing to the limited space, it was necessary to return the battalion after each advance to the starting point in order to get sufficient ground to show the extension on the plain as it would take place before an enemy 2,000 yards distant. At 6:30 o'clock there was dress parade in which

the graduating class participated for the last time as cadets. At the end of parade the members of the first class were formed in line in front of Com-mandant Mills, and the latter delivered an address to the class which was repliete with wholesome ad-vice as to the conduct becoming a United States vice as to the conduct becoming a time state.

Army officer.

The seven contests in the field day sports, which were postponed yesterday on account of the rainstorm, were resumed at 8:30 o'clock this morning, and resulted as follows:

Two-hundred-and-twenty yard dash. Shelton, '96, won in 23.3.5 seconds. (The record is 23.2.5 seconds, made by Shelton, 96.) in 23.3.5 seconds. The record hammer—Berry, '96, won with Throwing sixteen-pound hammer—Berry, '96, won with a throw of 35 feet 4½ inches. (The record, 85 feet 6 inches, was made by Hutton, '15. Pole vault—Won by Oakes, '97, 9 feet 6 inches. (The record, 9 feet, was made by Hyer, '93.)
One-hundred and twenty yard nurdle race—Won by McCormack, '97. Time—16.4-5 sec. (The record, 17 1-5; seconds was made by McCormack, '97.)
Standing broad jump—Won by Abbott. '97, 9 feet 11% inches. (The record is 9 feet 10½ inches and was made by Abbott. '97.)
Putting the sixteen-pound shot—Won by Dallam, 96, 36

by Abbott. '97.)

Putting the sixteen pound shot. Won by Dallam, 96, 36 feet 59 inches. (The record, 36 feet 3 inches, was made, by Dallam, '96.)

Four-hundred and forty-yard run. Won by McCormack, '97. Time-54% sec. (The record is 52% seconds and was made by Saltzman, 96.)

It will be seen from the above that the '97 class outgeneralled the '96 class more than eight points.

THEIR COACH DRAWN BY STUDENTS. LIVELY RECEPTION TO HARVARD'S VICTORIOUS BASEBALL TEAM.

Boston, June 11 .- The Harvard baseball team arrived home from Princeton at 7 o'clock this morning, and had a most enthustastic reception from a throng of Harvard students, who marched over from Cambridge to this city to meet them. At 6 o'clock this morning the Harvard brass band started from in front of Matthews Hall, and, playing martial music, marched around the college yard twice. This was sufficient to bring out a big crowd of students, who formed in line and started for the

Providence Line station.

Upon their arrival, the victorious players were cheered repeatedly, and escorted to a tally-ho coach in waiting outside the station. The horses were unhitched, a rope was tied to the coach, the men fell into line, and, with the band leading, the ball-play-ers were drawn by their cheering colleagues out as far as Harvard Bridge, on the road to Cambridge.

At the bridge a stop was made, and Captain Dean, of the ball team, made an address from the top of the coach. He thanked the students for their grand the coach. He thanked the students for their grand reception, and declared that the spirit shown by them was just what was needed to create and sustain successful athletic teams at Harvard. More cheering followed, and, as some of the ball-players had to be at examinations at 9 o'clock, they took electric cars for Harvard, while the throng of students continued their march out to Harvard Square, where they disbanded.

HARVARD CREW GETS SPILLED.

Poughkeepsle, June 11 (Special).-The Harvard crew met with an accident last night. They had been out for a spin over the course for the first time and were returning to their boathouse. The steamer Romer came down the river, and the wash capaized the Harvard shell, giving the crew a severe drench-ing. They were picked up by the launch, and the shell was towed to the boathouse none the worse for its experience.

NEW-YORK ATHLETIC CLUB ENTRIES. The list of entries for the spring games of the New-York Athletic Club, which will take place on June 13, is a long one, and includes the names of

many famous men. Among them are B. J. Wefers, the world's champion; B. B. Hinckley, F. Boardman and E. H. Betts, of Tale; G. G. Hollender, of the new Manhattan Club; C. H. Klipatrick, of the New-York A. G., and many others. Yale is particularly well represented.
